## Description and Objectives

## Aim

The aim of Enterprise Ireland ERC Proposal Preparation Support is to assist applicants as they prepare to apply for:

- [ERC Starting Grant](#)

Any unclear expenses will be questioned and can delay the processing of applications.

Applications to Enterprise Ireland for ERC Proposal Preparation Support must be submitted no later than six months prior to the ERC Call closing date. From 18 January 2023, Enterprise Ireland ERC Proposal Preparation Support is valid for 24 months from the date of submission of an application to Enterprise Ireland for support. **No time extensions** will be permitted and any unspent money must be refunded to Enterprise Ireland.

## **Enterprise Ireland ERC Proposal-Preparation-Support for ERC Synergy Grant**

As Synergy projects involve composite, integrated teams, applications to Enterprise Ireland for ERC Synergy Grant proposal preparation support will account for this. Up to two PIs from Irish HEIs preparing an ERC Synergy proposal can apply for ERC Support grants – the usual terms and conditions apply. If two PIs in an ERC Synergy proposal are applying from the same Irish HEI, they can also apply for two separate grants, provided it is fully justified in each application.

### **Eligible Costs**

## Resubmissions

In the case of a resubmission to Enterprise Ireland for Enterprise Ireland ERC Proposal Preparation Support, the total grant is capped at 50% which is €8,000 inclusive of VAT. A resubmission is where Enterprise Ireland has previously paid grant support for the same project. However, if you have previously applied for the ERC Starter Grant and are now applying for the ERC Consolidator Grant for the same project, this is not a resubmission.

Applicants should consider the strengths and weaknesses of their unsuccessful ERC application before resubmitting to Enterprise Ireland, as well as where to concentrate their efforts this time. This should be reflected in the cost categories resubmitted to Enterprise Ireland.

The applicant must include details of the previously submitted ERC proposal (incl. name, acronym, ERC proposal number, Call ID, whether or not it received Enterprise Ireland support funding for the first submission, and the score that was awarded to the ERC proposal in the previous evaluation) should be accompanied by a list of the major weaknesses identified in the evaluation (ideally attach the ESR) and a statement of how the Coordinator plans to overcome these weaknesses in the resubmission.

## **Evaluation Process**

Applications to Enterprise Ireland for ERC Proposal Preparation Support must be submitted no later than six months prior to the ERC Call closing date. Applications will be assessed to ensure administrative compliance with programme requirements and objectives. Following this, successful applications will be approved by Enterprise Ireland.

## **CV and Track Record Documents**

The applicant must upload a CV and a separate Track Record document – the track record document should be no more than two pages.

## **Monitoring and Reporting**

Unspent moneys must be returned to Enterprise Ireland.

Please Note: Enterprise Ireland will not be responsible for any misunderstandings by coordinators or their representatives, as to what are eligible costs.

**Confirmation of proposal submission** to the European Commission is required when submitting reports - this can be a photo, scan or snip from the receipt email or the Evaluation Summary Report. It should clearly show the date that the proposal was submitted.

If a proposal is not submitted, Enterprise Ireland will request a refund of the grant payment.

If you want to claim Stage 2 costs, you must submit **verifiable evidence of your invitation** to, or participation in, the Stage 2 interview. This documentation is required to support reimbursement claims.

**Enterprise Ireland reserves the right to decline further grant applications** from individuals whose Horizon Europe ERC proposals, supported by an Enterprise Ireland ERC Proposal Preparation Support grant, are deemed ineligible by the European Commission.
